SUMMARY

Motivated Computer Science student with hands-on experience in full-stack development and automation. Proven track record in building web features and optimizing applications using JavaScript and Python. Holds multiple certifications from industry leaders and is eager to leverage expertise in React.js, Next.js, and Node.js to contribute to fintech innovations.

EDUCATION

MANIPAL UNIVERSITY JAIPUR | *BACHELOR OF TECHNOLOGY, COMPUTER SCIENCE AND ENGINEERING* **2022**

DELHI PUBLIC SCHOOL | *Class XII (CBSE)* **2022**

DELHI PUBLIC SCHOOL | *Class X (CBSE)* **2020**

EXPERIENCE

PINNACLE LABS

Jun 2025 – Aug 2025

SOFTWARE DEVELOPMENT INTERN

Remote

- Collaborated with the engineering team to design and implement responsive web-based features using HTML, CSS, and JavaScript, aligning with full-stack development practices.
- Automated data processing tasks using Python, enhancing processing speed by 30% and demonstrating efficient problem-solving skills.

OM LOGISTICS LTD

Jun 2024 - Aug 2024

IT INTERN

Delhi, India

- Assisted in streamlining IT operations by automating documentation processes with Python, contributing to improved data validation and inventory tracking.
- Supported system maintenance and data management activities, ensuring reliable operations in a dynamic logistics environment.

PROJECTS

BINGEBOT | Movie Recommendation Website

- Built an intelligent movie and TV series recommendation bot using user preference and genre-based filtering.
- Implemented logic-driven recommendation algorithms to deliver personalized content suggestions
- Optimized user input handling to ensure fast and relevant recommendations.

TRAVEL ITINERARY CHATBOT | Chatbot

- Developed a chatbot that generates personalized, full-day travel itineraries based on user-selected destinations and interests.
- Designed time-wise schedules with clearly defined activity slots to enhance trip planning efficiency.
- Enabled global destination support, allowing users to plan trips for locations worldwide.

THE BLACK PENNY | Restaurant website

- Developed a full-stack restaurant web application using Next.js, TypeScript, Tailwind CSS, and Supabase.
- Implemented digital menu browsing and event listing features to enhance user accessibility and engagement.
- Deployed the application on Vercel with a production-ready architecture and modern UX principles.

READSY | E-Book Library Platform

- Currently developing an online e-book library platform inspired by Apple Books, focused on delivering a premium digital reading experience.
- Designing a clean, intuitive user interface with smooth navigation for enhanced readability and usability.
- Optimizing the reading experience to support comfortable access to free digital books across devices.

SKILLS

- **Programming Languages:** Python, Html, CSS, Java, SQL
- **Frameworks And Development:** Full-stack Development, React.js, Next.js
- **Soft Skills:** Problem Solving, Communication, Time Management
- **Tools And Platforms:** Cursors, Lovable, Canva, Supabase, Figma, GitHub

CERTIFICATIONS

- **Introduction to Front-End Development:** Meta
- **Scientific Computing with Python:** freeCodeCamp
- **GoldmanSachsSoftwareEngineeringJobSimulation:**For-age
- **Getting Started with Artificial Intelligence:** IBM
- **Front-End Development Libraries:** freeCodeCamp
- **Crash Course on Python:** Google
- **Business Analysis and Process Management:** Coursera

LANGUAGES

- English (Professional Proficiency).
- German (Basic Proficiency)
